The Board's proposal for decision on guidelines for remuneration to senior executives (item 15)

The Board proposes that the Annual General Meeting resolves, for the period until the 2018 Annual General Meeting, to adopt the following guidelines for remuneration to senior executives. The proposed guidelines are essentially comparable to the guidelines resolved at the 2016 Annual General Meeting.

The incentive system for the company's business organisation is of major strategic importance for Ratos. Against this background, a remuneration and incentive system has been drawn up designed to offer competitive terms at the same time as the company's employees are motivated to work in the interests of the shareholders.

The incentive system comprises a number of components – basic salary, variable salary in cash, pension provisions, call options and synthetic options – and rests on five basic principles.

- Ratos's employees shall be offered competitive terms of employment in an industry where competition for qualified employees is intense and at the same time be encouraged to remain with Ratos.
- Both individual efforts and group performance must be linked to clear targets set by the Board.
- Variable salary in cash which is paid out to senior executives shall be linked both to collectively- and individually set annual targets. The targets are both quantitative and qualitative and aims to fulfill Ratos's long termed strategy and to fulfill a result development which benefits the shareholders.
- Each year the Board sets a limit for the total variable salary, which shall amount to a maximum of approximately 0,6 per cent of the company's equity at the start of the financial year.
- Key people at Ratos shall be encouraged to have a shared perspective with the company's shareholders which may be achieved through reasonably balanced option programs where

employees can share in price rises alternatively realized increases in value, but also take a personal risk by paying a market premium for the options.

With regard to the costs for the proposed option programs, see the Board's proposal regarding call options (item 16) and synthetic options (item 17).

Pension benefits shall, as far as possible, be pre-defined pension cost solutions, however some pension benefits which is in accordance with the ITP Plan are defined benefits.

If the Company decides to terminate the CEO's employment, the period of notice is 2 months, if instead the CEO decides to terminate the employment, the period of notice is 6 months.

All previously resolved remunerations pending payment is within the guidelines previously decided.

The Board shall be entitled to deviate from these guidelines if special circumstances should prevail in an individual case.

The Board's proposal for decision regarding issue of call options and transfer of treasury shares (item 16)

The Board proposes that the Annual General Meeting decides on the issue of a maximum of 800,000 call options on treasury shares in the Company and that a transfer of a maximum of 800,000 Class B shares in the Company be made in connection with possible exercise of the call options. The call option program conforms in all material respects with the call option program decided by the 2016 Annual General Meeting.

The reason for deviation from the pre-emptive rights of shareholders and the Board's motivation for the proposal are as follows. The incentive system for the Company's business organisation is of major strategic importance for Ratos. Against this background, the Board is of the opinion that an effective share-based incentive for the company's key people is highly significant for the Company's development. The Board's aim is that all key people should be given an opportunity to participate in an option program every year and acquire and hold options from five different series. The program is deemed to be advantageous for the Company and its shareholders.

On 16 February 2017, the Company had the following share-based incentive programs.

Call options with maturity	Exercise price SEK/share	Outstanding options	Corresponding no. of shares
2012-2017 03 20	72.00	1,149,200	1,183,676
2013-2018 03 20	63.50	585,900	585,900
2014-2019 03 20	55.20	574,500	574,500
2015-2020 03 20	57.10	462,100	462,100
2016-2021 03 19	48.70	453,000	453,000

The exercise period for call option series 2017 shall be 1 October 2020-18 March 2022. The price per share (exercise price) shall initially correspond to 125 per cent of the average of the for each trading day during the period 11-15 September 2017 calculated average volume-weighted price paid for Ratos B shares on Nasdaq Stockholm. The number of shares and the exercise price for the shares included in the decision for transfer according to this item is, if appropriate, restated on the basis of a dividend paid, bonus issue, reversed split or split of shares, new issue or reduction of share capital or similar measures.

A market premium shall be paid for the options based on a market accepted valuation model (Black & Scholes) based on the average of the for each trading day during the period 11-15 September 2017 calculated average volume-weighted price paid for Ratos B shares on Nasdaq Stockholm, rounded to

Ratos Annual General Meeting 2017

This document has been prepared in Swedish and translated into English. In the event of any discrepancies between the Swedish and the translation, the former shall take precedence.

the nearest full ten öre whereby five öre shall be rounded up. The calculation will be performed by two independent valuation institutes whereby the average of the valuations, rounded off to the nearest full ten öre whereby five öre shall be rounded up, shall be regarded as the market premium. The purchase of options may be subsidised by the option purchaser receiving an extra cash compensation corresponding to a maximum of 50 per cent of the option premium after deduction for 55 per cent standard tax, whereby the compensation will be divided into equal components over five years and normally provided the person concerned is still working in the Ratos Group and still holds options acquired from Ratos or shares acquired through the options.

The right to purchase options shall apply to the CEO and other key people (investment managers and others) with a maximum of between 10,000 and 300,000 options per person. Members of the Board of Ratos are not included in this offer. A maximum total of approximately 25 people will be included in this offer. Allocation will be made by the Board in accordance with the principles adopted by the Annual General Meeting and based on position and experience. Notification of purchase of options shall be made during the period 11-18 September 2017.

Transfer of shares may only be made to holders of call options who during the period 1 October 2020-18 March 2022 backed by call options request such a transfer. Payment for shares acquired backed by call options shall be made within 10 banking days from the request to purchase. Complete terms and conditions for the options are provided in Appendix I of the proposal.

Based on a price for Ratos shares of SEK 42,65, and on other market conditions that prevailed on 20 February 2017 and the Board's proposal for a dividend for the 2016 financial year, the value per option has been estimated by Nordea Bank AB (publ) and Deloitte AB to SEK 5,10, which provides a value for all options of approximately SEK 4,1million.

Subsidy of the option premium, calculated on the basis of the above-mentioned estimated option value, gives rise of a maximum cost of SEK 6 million including social security costs. The Board's proposal will result – applying IAS 33 – in a decrease in earnings per share of SEK 0,07 to SEK -1,86 per share and an unchanged equity per share of SEK 31 for 2016 pro forma.

In the event of exercise of the proposed options, the number of outstanding shares will increase. These new shares will comprise, in the event of full exercise of the options, 0.3 per cent of the number of shares and 0.1 per cent of voting rights, based on shares outstanding (i.e. total number of issued shares reduced by the Company's holding of treasury shares). In the event of full exercise of the options now proposed together with existing options, the number of shares will comprise 1.3 per cent of shares and 0.4 per cent of voting rights, based on shares outstanding.

The proposal was prepared by the Company's Compensation Committee together with external advisors, and adopted by the Board.

A decision under this item is only valid if it is supported by shareholders representing at least nine-tenths of both votes cast and shares represented at the Meeting.

The Board's proposal for decision regarding the issue of synthetic options to senior executives and other key people at Ratos (item 17)

The Board proposes that the Annual General Meeting resolves to introduce a cash-based option program related to Ratos's investments in the portfolio companies. It is proposed that the program is carried out through the issue of synthetic options ("2017 Option Program"). The 2017 Option Program is expected to lead to greater involvement and increased motivation for the participants in the program and result in those included in the program having stronger ties to Ratos. The 2017 Option Program is intended to include approximately 25 present and future senior executives and key people at Ratos. Ratos's Board is of the opinion that the Program will benefit Ratos's shareholders and that it will contribute to opportunities to recruit and retain competent employees.

The Board shall be responsible for the detailed design and management of the 2017 Option Program within the framework of the following terms and conditions:

- The invitation to acquire options shall include the CEO and other key people (investment managers and others) currently working at Ratos or who may be employed during the period until the next Annual General Meeting, a total of approximately 25 people, with a maximum of between 10 and 200 options per person and investment. Members of Ratos's Board are not included in the invitation.
- The invitation to acquire and agreements regarding options shall include all the portfolio companies invested in by Ratos during the period from the 2017 Annual General Meeting (or where applicable, from the date after the 2017 Annual General Meeting when the participant is employed) and until the next Annual General Meeting. The total number of options attributable to a portfolio company shall amount to a maximum of 1,000 and represent 5 per cent of Ratos's total investment in the portfolio company. Regarding the portfolio company's acquisition during 2016 up until the 2017 Annual General Meeting, a purchase of maximum 1,000 options in each portfolio company, each equivalent to 2 per cent (in addition to the already offered options corresponding to 3 per cent) of Ratos's total investment in each respectively Option Program ("The 2017 Additional Program"), can be made.
- Participants in the 2017 Option Program and in the 2017 Additional Program shall no later than 15 August 2017 or at an earlier point in time which the Board decides, provide notification of participations. Participants employed after the 2017 Annual General Meeting shall be entitled to submit notification of participation at a later date. Acquisition of options attributable to a specific portfolio company shall according to the 2017 Option Program be made in conjunction with Ratos's investment in the company. Acquisition of options in accordance with the 2017 Additional Program shall take place no later than 22 August 2017 or at an earlier point in time which the Board decides, or, as for participants employed later, at a date decided by the Board (however, at latest the day prior to the 2018 Annual General Meeting).
- Employees' option acquisitions shall be made at market value. The value will be calculated by two independent valuation institutes applying a standard valuation model (Black & Scholes).
- The issue of synthetic options shall take place by an agreement being concluded between Ratos and the employee containing principally the following terms and conditions:
 - One option shall give the option holder the right to receive from Ratos a sum of money calculated on the basis of the cash flow Ratos receives from its investment in the portfolio company, after Ratos has received a return of 8 per cent per year.
 - The term of the option shall correspond to Ratos's investment period in the portfolio company, although a maximum of 10 years.
 - The option shall be freely transferable, but subject to a pre-emptive right for Ratos to acquire the option.
- The purchase of options may be subsidised by the option purchaser receiving an extra cash compensation corresponding to a maximum of 50 per cent of the option premium, up to a maximum of 5 per cent of Ratos's total investment in the current portfolio company, after deduction for 55 per cent standard tax, whereby the compensation will be divided into equal components over 4 years and assumes in the type-case that the person concerned still is active within Ratos's group and henceforth possesses from Ratos's acquired options.

The options will be transferred at a market price. A part of Ratos's cost for the program consists of the cost of the subsidy including social security contributions. In addition, the future costs or revenue for Ratos attributable to issued options are added, which will depend on the value growth of Ratos's investment in the portfolio company concerned. If the value growth is less than 8 per cent per year,

the options will be worthless and the paid-in premium will be revenue for Ratos. If the value growth on Ratos's investment in the portfolio company concerned exceeds 8 per cent per year, the options will have a value. The total value of the issued options as for the 2017 Option Program at the closing date will be a maximum of 5 per cent of the difference between the actual realised value for Ratos's investment at the closing date and the acquisition value increased by 8 per cent per year. The total value of the issued options as for the 2017 Additional Program at the end time amounts to a maximum of 2 per cent of the divergence between the value increased for Ratos's investment from the acquisition and the paid-in premium recounted by 8 per cent per year. The value of the options on the closing date, with deduction of paid-in premium and addition of costs for the proposed subsidy, will be the total cost to Ratos. Any gains for option holders will be paid at Ratos's exit or no later than after 10 years. Based on the average outcome of previous years' option programs, the cost for the subsidy is estimated to amount to a maximum of approximately SEK 6 million, including social contributions.

The proposal has been prepared together with external advisers and has been examined by the Compensation Committee and the Board.

A decision under this item is only valid if it is supported by shareholders representing more than half of votes cast at the Meeting.

The Board's proposal for decision on amendments to the Articles of Association (item 18)

In order to enable the issue of preference shares in accordance with the Authorisation proposed in item 21, the Board proposes that the Annual General Meeting resolves on changes in the Articles of Association's article 6, whereby it will contain the following wording:

“Article 6: SHARE CLASSES

1. Shares can be issued in four classes, Class A, Class B, Class C preference shares and Class D preference shares.
2. Each class A share entitles the holder to one vote. Each Class B share, each Class C preference share and each Class D preference share entitles the holder to one-tenth of a vote.
3. Class A shares may be issued in a maximum number that corresponds to 27 per cent of the share capital in the Company, Class B shares may be issued in a maximum number that corresponds to 100 per cent of the share capital in the company, Class C preference shares may be issued in a maximum number that corresponds to 10 per cent of the share capital in the company, and Class D preference shares may be issued in a maximum number that corresponds to 10 per cent of the share capital in the company.
4. *Dividend*
If the Annual General Meeting resolves on a dividend, Class C preference shares shall carry preferential rights before Class A shares and B shares to an annual dividend as set out below.

Preferential rights to dividend per Class C preference share (“Preference Dividend C”) shall:

- i. with effect from the first payment date (see below) immediately after Class C preference shares are registered with the Swedish Companies Registration Office until and including the final payment date prior to the 2017 Annual General Meeting amount to SEK 25 per quarter, although a maximum of SEK 100 per year with record dates as set out below.
- ii. with effect from the first payment date after the 2017 Annual General Meeting and for the subsequent period the annual Preference Dividend C shall increase by a total of SEK 20 evenly divided into quarterly payments. Adjustment shall be made in conjunction with the first payment after the 2017 Annual General Meeting.

If the Annual General Meeting resolves on a dividend, Class D preference shares shall carry the same preferential rights as Class C preference shares before Class A and Class B shares to an annual dividend as set out below.

Preferential rights to dividend per Class D preference share (“Preference Dividend D”) shall:

- i. with effect from the first payment date (see below) immediately after Class D preference shares are registered with the Swedish Companies Registration Office until and including the final payment date prior to the 2021 Annual General Meeting amount to SEK 25 per quarter, although a maximum of SEK 100 per year with record dates as set out below.
- ii. with effect from the first payment date after the 2021 Annual General Meeting and for the subsequent period the annual Preference Dividend D shall increase by a total of SEK 28 evenly divided into quarterly payments. Adjustment shall be made in conjunction with the first payment after the 2021 Annual General Meeting.

Payment of dividends on Class C and Class D preference shares shall be made quarterly. Record dates shall be 15 February, 15 May, 15 August and 15 November. In the event such day is not a banking day, i.e. a day that is not a Saturday, Sunday or a public holiday, the record date shall be the closest preceding banking day. Dividend payments will be made on the third banking day after the record date. The first time payment of dividends on Class D preference shares may be made is on the payment date that occurs after the first record date after the preference shares are registered with the Swedish Companies Registration Office.

If no dividend is paid on Class C or Class D preference shares, or if only a dividend lower than the Preference Dividend C and D is paid, Class C and Class D preference shares shall, provided the Annual General Meeting resolves on a dividend, carry entitlement to in addition to future Preference Dividends C and D to receive an amount, evenly distributed on each Class C and Class D preference share, corresponding to the difference between what would have been paid and the amount paid (“Outstanding Amount”) before dividends are paid on Class A or Class B shares. The Outstanding Amount shall be adjusted upwards by a factor corresponding to an annual interest rate of 10 per cent, whereby upward adjustment shall start from the quarterly date when payment of part of the dividend was made (or should have been made, in the event no dividend was paid at all).

Class C and Class D preference shares shall not otherwise carry entitlement to a dividend.

5. *Redemption of Class C and Class D preference shares*

A reduction of the share capital, although not below the minimum capital, may be effected through redemption of a certain number or all Class C and/or Class D preference shares following a decision by the Board. When a decision on redemption is made, an amount corresponding to the reduction amount shall be placed in a reserve if requisite funds for this purpose are available.

The allocation of which Class C preference shares shall be redeemed shall be made pro rata in relation to the number of Class C preference shares which each preference shareholder owns on the date of the Board’s decision on redemption. If the allocation as set out above is not even, the Board shall decide on allocation of surplus Class C preference shares which shall be redeemed. If the decision is approved by all holders of Class C preference shares the Board may decide, however, which Class C preference shares are to be redeemed.

The redemption amount for each redeemed Class C preference share shall be an amount as follows:

- i. Until the first quarterly record date for dividends after the 2017 Annual General Meeting, an amount corresponding to 115 per cent of the amount paid for each Class C preference share at the first issue of Class C preference shares (“Initial Subscription Price C”) plus the Outstanding Amount adjusted upwards by an annual rate as set out in paragraph 4 above. The

redemption amount for each redeemed Class C preference share shall, however, never be lower than the share's quota value.

- ii. With effect from the first quarterly record date for dividends after the 2017 Annual General Meeting and for the subsequent period, an amount corresponding to 105 per cent of the Initial Subscription Price C plus the Outstanding Amount adjusted upwards by an annual rate as set out in paragraph 4 above. The redemption amount for each redeemed Class C preference share shall, however, never be lower than the share's quota value.

The allocation of which Class D preference shares shall be redeemed shall be made pro rata in relation to the number of Class D preference shares which each preference shareholder owns on the date of the Board's decision on redemption. If the allocation as set out above is not even, the Board shall decide on allocation of surplus Class D preference shares which shall be redeemed. If the decision is approved by all holders of Class D preference shares the Board may decide, however, which Class D preference shares are to be redeemed.

The redemption amount for each redeemed Class D preference share shall be an amount as follows:

- i. Until the first quarterly record date for dividends after the 2021 Annual General Meeting, an amount corresponding to 115 per cent of the amount paid for each Class D preference share at the first issue of Class D preference shares ("Initial Subscription Price D") plus the Outstanding Amount adjusted upwards by an annual rate as set out in paragraph 4 above. The redemption amount for each redeemed Class D preference share shall, however, never be lower than the share's quota value.
- ii. With effect from the first quarterly record date for dividends after the 2021 Annual General Meeting and for the subsequent period, an amount corresponding to 100 per cent of the Initial Subscription Price D plus the Outstanding Amount adjusted upwards by an annual rate as set out in paragraph 4 above. The redemption amount for each redeemed Class D preference share shall, however, never be lower than the share's quota value.

The Board’s proposal that the Board be authorised to decide on purchase of treasury shares (item 19)

The Board proposes that the Annual General Meeting authorises the Board during the period before the next Annual General Meeting to decide on acquisition of treasury shares in accordance with the following conditions:

- Acquisition may be made of Class A shares, Class B shares, Class C preference shares and Class D preference shares which may be issued prior to the next Annual General Meeting.
- Acquisition must take place on Nasdaq Stockholm.
- Acquisition may take place on one or more occasions prior to the next Annual General Meeting.
- A maximum number of shares may be acquired so that the company’s holding at any time does not exceed seven (7) per cent of all the shares issued in the company.
- Acquisition may be made at a price within the price band registered at any time on Nasdaq Stockholm.
- Acquisition may be made within the frame of a repurchase program in accordance with Regulation (EU) No 596/2014 of the European Parliament and of the Council and with the Commissions delegated regulation (EU) 2016/1052.

The purpose of the purchase of treasury shares is to give the Board more alternatives in its work to create value for the company’s shareholders. This includes hedging of call options issued within the framework of Ratos’s incentive program.

A decision under this item is only valid if it is supported by shareholders representing at least two-thirds of both votes cast and shares represented at the Meeting.

The Board’s proposal that the Board be authorised to decide on new issue of Class B shares in conjunction with company acquisitions (item 20)

The Board proposes that the Annual General Meeting resolves, during the period until the next Annual General Meeting, to authorise the Board in conjunction with agreements on company acquisitions, on one or several occasions, with or without deviation from the pre-emptive rights of shareholders, for a cash payment, through set-off or non-cash, to make a decision on new issue of class B shares in the company. This authorisation shall comprise a maximum of 35 million class B shares. The new issue amount received may, for each individual agreement on company acquisition, amount to a maximum of Ratos’s capital contribution for the acquisition.

The reason for deviation from pre-emptive rights is that the company shall be able to issue shares as payment in conjunction with company acquisitions, alternatively procure capital for such acquisitions. The issue price will be determined in accordance with current market conditions.

The Board of Directors, the CEO or the person appointed by one of them shall be entitled to make any minor adjustments to the above decision which might be required in conjunction with registration with the Swedish Companies Registration Office.
